SUMMARY

I am a graduate of the Informatics Engineering program at Politeknik Elektronika Negeri Surabaya. I have strong skills in web and mobile application development, including backend development with Laravel, frontend with Next.js/React, and mobile with Flutter. Through various projects involving API integration, databases, and cloud services such as Firebase, I am experienced in building everything from user interfaces to reliable backend systems. Driven by a passion for continuous learning and adapting to new technologies, I aim to grow as a professional developer, contribute to collaborative teams, and create digital solutions that make a real impact.

EXPERIENCE

Full Stack Developer

E-Learning – Academic Project

Nov 2023 – Dec 2023

- Developed a web-based e-learning platform using Laravel, ReactJS and PostgreSQL.
- Implemented authentication, course management, and material upload features.
- Integrated Cloudinary for file storage and media management.
- Designed responsive user interfaces using Tailwind CSS.

Mobile Developer

Smart Hydroponic App – Final Project

Jan 2026 – June 2026

- Developed a Flutter-based IoT monitoring application for hydroponic systems.
- Implemented real-time monitoring using Firebase Realtime Database.
- Integrated QR-based device pairing and authentication features.
- Built responsive UI for monitoring pH, temperature, and nutrient data.

AI Digital App – Internship at PT Travelana

Jul 2024 – Dec 2024

- Developed mobile application features using Flutter for multiple company projects.
- Implemented responsive UI slicing based on design requirements.
- Integrated REST APIs for frontend and backend communication.
- Collaborated with the development team to improve application functionality and user experience.
- Maintained and optimized existing mobile application features.

Frontend Developer

Company Landing Page – Freelance Project

May 2026

- Built responsive landing page and gallery website using HTML, CSS, and JavaScript.
- Added smooth animations and responsive layouts for multiple devices.
- Deployed website using Vercel and configured custom domain settings.

EDUCATION

Electronic Engineering Polytechnic Institute of Surabaya

Associate Degree in Informatics Engineering (D3)
• IPK: 3.61

Aug 2022 – Jul 2025

Electronic Engineering Polytechnic Institute of Surabaya

Applied Bachelor of Informatics Engineering (D4)
• IPK: 3.67

Aug 2025 – July 2026

SKILLS

- Mobile Application Development (Flutter, Dart)
- Web Development (Laravel, PHP, ReactJS, NextJs, HTML, CSS, Javascript)
- Database Management (PostgreSQL, Firebase)
- IoT System Development
- Problem Solving
- Team Collaboration
